Declaration of Independence

Be it known to all persons that ATOM-YOW is hereby known as an independent nation on this 22nd day of June in the year of our Lord, Two Thousand and Thirty-Six, Anno Domini, Robtown, New Human, ATOM-YOW.

The unanimous Declaration of the nation of ATOM-YOW,

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with one another. ATOM-YOW has now decided, with decent respect to the opinions of mankind, that it is required to declare the causes which impel the nations of Canada and ATOM-YOW to separate.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights. The history of the present Prime Minister of Canada and the people of Canada is a history of repeated indecencies and inequality, all having a direct effect on the people of Canada and most especially, ATOM-YOW. To prove this, let Facts be submitted to a candid world.

Canada (hereby referred to as She) has refused to allow for wholesome enjoyment of perfection, for the public good.

She has allowed people to draw lines not using a ruler.

She has broken trust with the people of ATOM-YOW by advertising the wearing of "pajamas" outside of homes, a strictly forbidden practice in our area, after direct confrontation and negotiations against it.

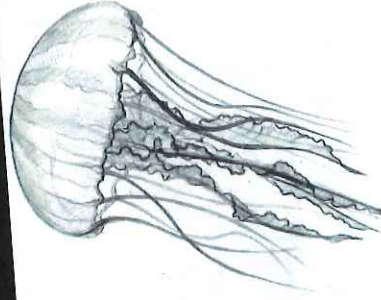

The nation of ATOM-YOW has decided to become a sovereign nation for the good of its people, and to ensure that the practice and yearning for perfection is not lost. ✓

Robert W. Human

ATOM-YOW

"You'll fit in perfectly!"

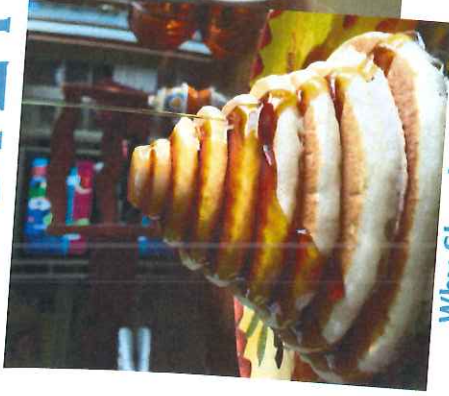

Welcome to ATOM-YOW

You may have noticed that our name is entirely symmetrical. If you have, we have the perfect place for you. ATOM-YOW features an almost perfectly round island, trees that grow straight up, flat landscape, perfect cube or rectangular prism buildings, and angles that will make you glad you are alive. We take our strength from our angular leader, the mighty Pythagoras, inventor of the Pythagorean Theorem, and lover of right angles. We bear him on our flag along with a perfect square and circle. Our national animal is the jellyfish, as it is radially symmetrical. If you were to cut it in half vertically anyway, it would be the same on both sides. How cool is that? Here in ATOM-YOW, we are proud to say that we are a true communist society. No one is above anyone else!

Typical Teenager's Weekday Itinerary

6:00am	Wake up, as per regulations
6:01am	Make bed to standards (i.e.: 45° hospital corners)
6:03am	Ensure socks are same colour and pattern before putting them on
6:10am	Do morning activities (i.e.: breakfast made up of symmetrical food)
8:00am	Begin schooling with subjects including math, science, music, other electives, and history of ATOM-YOW
11:30am	Eat lunch (also made up of symmetrical food)
4:00pm	End schooling for the day
5:30pm	Eat supper (consisting of food of choice)
6:30pm	Begin recreational activities (i.e.: sports, music)
8:30pm	End recreational activities for the day
9:00pm	Begin nighttime activities
10:00pm	Go to bed, as per regulations

Why Should You come to ATOM-YOW?

- If you love symmetry, you'll love our nation
- If you feel you are not considered equal where you are now, everyone is considered equal here
- Routines are kept at all times
- Feel the relief of watching a box slide perfectly into its container, as per our laws
- If you get pleasure from witnessing and being involved in things going off without any problems, you'll get along well here
