PEACEVILLE

*“Unity and Peace Shall
Not Cease, For Love is All
Around Us”*

Peaceville has sights that will take your breath away. Surrounding our town are lush forests and mystical mountains- all surrounded by an abundance of rivers and lakes. Here in Peaceville, nature is widely embraced and tranquil is forever in the air, yet the heart of the village is lively and welcoming with something to interest all of our citizens.

Why Peaceville?

Our Values

Peaceville promotes harmony among our society. We strongly believe in care and kindness for all our citizens, and assure that everyone is looking out for each other so that no one is left going through the rocky parts of life alone.

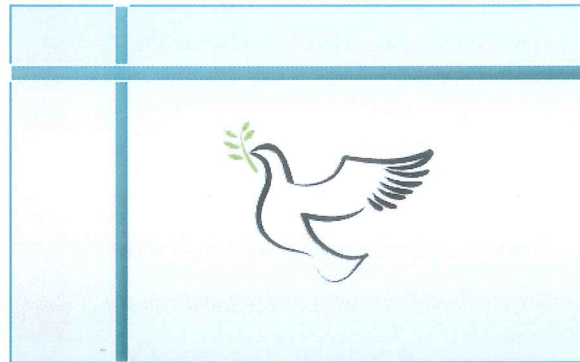

Our Freedom

Citizens in Peaceville have the freedom to express themselves, to learn, and to grow in a variety in different ways without being limited or judged. Each individual has different and unique needs and thoughts, and here in Peaceville, we make sure that these thoughts and ideas are expressed in ways that suit each individual appropriately. *Whether* that be hands-on experiences, one-on-one education, or individual exploration of topics, we have it all. We realize that without our citizens, Peaceville would not exist. Their opinions and thoughts matter, which is why a Democratic government suits our society; allowing our citizens to have a say in how our town runs.

Naps

We take napping seriously in Peaceville. We understand that sometimes, a good night's sleep is hard to come by; or maybe you've had a hard day and just need a nice power nap. That's why we have a numerous supply of pillows and blankets all around town to accompany anyone, anywhere in search of a good nap.

Love this!

The Peaceville Dove

Doves are graceful, gentle creatures that represent peace and serenity. They travel long distances, enabling them to "spread peace" among everyone, and do not kill for food, or fight back when being attacked. The symbolism of the Dove reflects Peaceville values in a congenial manner.
